

CAREN CHELGREN

VETERINARIAN

Dr. Caren Chellgren grew up in Kansas, where she attended Kansas State University for undergrad and veterinary school, graduating in 2015. She has always been an avid horseback rider and rescuer of all animals. Although horses were her passion throughout school, she wanted to help the community by providing services for rescued animals and underserved communities. Since 2018, she has been working closely with many rescue organizations and participates in mass spay/neuter events in Houston throughout the year. In her free time, she enjoys riding her horses, camping, and spending time with all of her animals at home.
